

On the cover: Volumatic AC-powered electromagnetic feeder's vibratory control ensures the proper flow of sugar and sprinkles onto cookies at the Davis Cookie Co. Energy-efficient 39-inch-wide (99-centimeter-wide) feeder provides consistent cookie coverage with minimal product damage and topping waste. Portable feeder's height can be adjusted to accommodate all of the cookie company's special occasion confections. Courtesy of Eriez Magnetics, Erie, PA USA, +1 814 835 6000 (www.eriez.com).

POWDER and BULK ENGINEERING *International*

VOLUME 3, NUMBER 2

MARCH 2010

FEEDERS

- 8 Introduction to microfeeding powders *Jim Foley*
- 13 Equipment feature: Feeders

SCREENING AND CLASSIFYING

- 15 Refurbish and retrofit to increase your vibratory screener's service life *Adrian N. Gamburgro*
- 18 Equipment feature: Screening and classifying
- 28 Suppliers' tips: Some simple or commonly overlooked ways to increase your screening rate

GENERAL FEATURES

- Cover 2 Ask an expert: Agglomerating detergents *William H. Engelleitner*
- 5 Dust Doctor: Capturing dust at its source *John A. Constance*
- 20 Trade show preview: POWTECH 2010
This trade show for the powder and bulk solids industries is colocated with the World Congress on Particle Technology (WCPT6) and TechnoPharm 2010 in Nürnberg, Germany. This guide includes the site plan and POWTECH's complete list of exhibiting companies.
- 26 POWTECH 2010: Equipment feature

DEPARTMENTS

- 3 People news
- 3 Supplier notes
- 7 Engineering literature: Valves
- 28 Advertiser index
- Cover 3 Product update
