

On the cover: Model SCF dryer was custom-engineered for PT. Indo-Bharat Rayon (IBR), Purwakarta, Indonesia, to process nonwoven-grade viscose rayon staple fiber. Dryer features contamination-free operation, has a special nonlubricant chain, and is constructed of low-carbon specialty steels. Dryer maximizes production capacity output per square meter of drying area and provides more efficient power consumption per tonne of processed product than comparable machines. POWDER and BULK ENGINEERING *International*

VOLUME 3, NUMBER 5

SEPTEMBER 2010

DRYING

- 9 An introduction to steam-atmosphere drying *Stewart G. Gibson*
- 15 Equipment feature: Drying

BAGGING AND PACKAGING

- 16 Case history: Packaging and palletizing line upgrade comes out on top in the Land Down Under
- 19 Equipment feature: Bagging and packaging

GENERAL FEATURES

- Cover 2 Ask an expert: Pneumatic conveying air velocity *Paul E. Solt*
- 6 Agglomeration Advisor: Using the pin mixer for agglomeration
William H. Engelleitner
- 20 Case history: Grate magnets demonstrate true grit in Bolivian facility
- 23 Trade show preview: IBP 2010—The International Powder and Bulk Conference and Exhibition returns to Shanghai.

DEPARTMENTS

- 3 Industry news
- 8 Engineering literature:
Bin dischargers
- 24 Events
- 24 Supplier notes
- 24 Advertiser index
- Cover 3 Product update
